Statement of E	Evidence: East Quarter Corner Section 4 T102N R39W 5th P.M.
Oct. 23, 1868	The original Public Land Survey was run in 1868 by Deputy Surveyor Richard H. L. Jewett, and his notes read: "Set post for $\frac{1}{4}$ sec. corner in mound with pits".
June 24, 1896	M. S. Smith, Nobles County Surveyor, states on a survey plat: "E $\frac{1}{4}$ post orig stake in mound".
1896	Nobles County Highway Department records show a stake in 1896.
Oct. 31, 1902	M. S. Smith, Nobles County Surveyor, states on a survey plat: "stone original stake & mound".
1902	Nobles County Highway Department records show a stone in 1902.
Sept. 6, 1912	A plat by William A. Saxon, Nobles County Surveyor, indicates: "found stone".
1912	Nobles County Highway Department records show a stone in 1912.
Aug. 17, 1989	A Minnesota Department of Transportation field survey crew, consisting of R. Busse, K. Janovsky, M. Johnson and G. Menken, searched for the corner using a tractor mounted backhoe. During the course of their excavation, they found a 16 inch by 14 inch by 9 inch stone, broke off on the south side, down about 1 foot below the gravel surface. They lowered the stone and placed a 2 inch square by 27 inch long Minnesota Department of Transportation Public Land Survey Monument down about 5 inches below the gravel road surface directly over the stone.
	The above chain of record, dating from the original Public Land Survey corner, indicates that the found stone is a perpetuation of the original Public Land Survey corner.
	For additional information, including measurements and photographs, contact the Minnesota Department of Transportation in Windom, Minnesota.

Tract Light Compares dry.
