Statement of Evidence: Center Section 26, T. 102, R. 40, Nobles County

Since this section is fractional and the North Quarter and Northwest Corners fall in West*Lake Okabena, I have set the center as the Southwest Corner of Government Lot 4 and file this certificate as notice of such and for the guidance of future surveys.

Since East Lake Okabena labeled has been dried up for years, the East Quarter Corner is now recognized too.

April 10, 1900 - Milton S. Smith, County Surveyor, laid out a great portion of the East Half of Section 26.

June, 1914 - William A. Saxon, County Surveyor, laid out the East Okabena Lake bed, (dried up) in an Auditor's Plat.

I used a proration factor of 1.0009 times Smith's distances based on his measurement from the South Quarter Corner to the trunk highway on my measurement of the same down the centerline of County Road 57.

The current work was performed by : Hagemeister, Ebeling & Lehn, Inc.
