DOCUMENT NO. _____

Statement of Evidence

East Quarter Corner Section 13, Township 102 North, Range 44 West

According to the Original Survey notes located in the Secretary of States Office, the East Quarter of Section 13 was established as follows: North on the true line between Ranges 43 & 44, Township 102, between Sections 13 & 18, Variance 12 degrees, at 40.00 chains set a post in mound for the Quarter Section Corner.

1978 Nobles County Highway Department records show a spike.

2003 On November 8, Bolton & Menk, Inc. found a Cast Iron Monument 0.5' below the surface at the intersection of a minimum maintenance road to the North and to the East.

The evidence is not conclusive as to the true corner location, however the occupational and collateral evidence suggest that this is a reasonable location as to the corner. Additional information regarding the preparation of this certificate can be obtained by contacting: Bolton & Menk, Inc., Mankato, MN.
