Original position of the Northeast Corner of Section 11, Township 103N, Range 41W, 5th P.M. was surveyed by G.L.O. Deputy Surveyor Jewett Howe in 1868. Mr. Howe set a post in mound with pits for Section Corner.

In 1902 Nobles County Surveyor, M.S. Smith, references a Red Jasper Stone marking the position of said Corner in a survey of Section 11, Surveyor's Record Book, pg 94.

Nobles County Highway Department "Corner Ties Book" calls for the following:
—stone in 1902
—stone in 1923
—stone in 1953 — placed wood stake
—wood stake in 1961
—stake in 1980 — placed iron pipe
—iron pin in 1992 — replaced with "PK" after said overlay in 1992

November 23, 1996 Enviroscience, Inc found the "PK" and it was accepted as the perpetuated position of the Northeast Corner of Section 11, T 103N, R41W. A 3/4" X 15" Iron Rod with an Aluminum Cap was placed at the position of said "PK".
