Statement of Evidence

NORTHEAST CORNER OF SECTION 27, TOWNSHIP 103 NORTH, RANGE 42 WEST, 5^{TH} P.M.

September 1868:

George B. Howe and Richard H. L. Jewett, Deputy Surveyors, set a post in mound with pit for corner during the Original Public Land Survey.

August 1897:

Nobles County Surveyors Records, as shown on file at the County Recorder's office, show monument is "gone".

January 1915:

Wm. A. Saxon, Nobles County Surveyor, set stone for corner.

1923:

Nobles County Highway Department land ties show stone in place.

April 1926:

John Spolum, Nobles County Surveyor, found old stone for corner.

1941:

Nobles County Highway Department land ties show stone in place.

1953:

Nobles County Highway Department land ties show stone in place. Placed wood stake for corner.

June 1972:

Nobles County Highway Surveyor found wood stake, placed 24" iron pin for corner.

August 2003:

Chad Nolte, Yaggy Colby Associates, found 5/8" iron pin under bituminous roadway.

An analysis of the record and survey data indicates the iron pin is a perpetuation of the stone set by Wm. A. Saxon in 1915 and is accepted as a perpetuation of the Public Land Survey corner.
