2017-On November 28th, Westwood Professional Services field crews searched the area and found nothing. The distance given in 1903 across the north line of section 14 is 5307.90' and Westwood measures 5296.73'. Set #5 rebar with LS 49563 cap at centerline and fence line south. This location fits 3.5' from proportioned distance using 1903 survey and is deemed the best available evidence of the corner location. Ties were found or set as shown on the front of this certificate.

Analysis of the recovered data, field evidence and survey measurements, indicates that the monument found is the correct perpetuation of this corner. For additional information concerning this corner please contact Westwood Professional Services.
